

## 01 Health and safety procedures

### 01.13 Entrances and approach to the building

- Entrances and approaches are kept tidy and always uncluttered.
- All gates and external fences are childproof and safe.
- Front doors are always kept locked and shut.
- Main entrance has glass access doors so staff can clearly see visitors before unlocking the door.
- The identity of a person not known to members of staff is checked before they enter the building.
- All visitors to the setting sign in and out of the building. A note of which staff are working each day is logged in the diary.
- A member of staff is available to open and close the door and to greet arrivals, say goodbye to parents and to make sure that doors and gates are shut.
- Back doors are always kept locked and shut if they may lead to a public or unsupervised area, unless this breaches fire safety regulations or other expectations.
- Where building works or repairs mean that normal entrances/exits or approaches to the building are not in use, a risk assessment is conducted to maintain safety and security whilst the changes are in place.
- Whilst social distancing restrictions are in place a risk assessment identifies measures required to keep parents two metres apart and to reduce risk of parents gathering in entrance areas during peak times.
